

LOT #1

HARVEST NAILED, TOOLS FOR A YEAR

Handy toolkit for a year in the vineyard

Growers, time to **up your vineyard game!** Gear up to crush your harvest with these state-of-the-art tools to nail **every part of the growing season throughout the year.** Our NVG Board members have assembled a collection of prized services, materials, and equipment for tending the vines season by season.

Farm your valuable vineyard with this collection of **essential supplies and services**, each at the industry forefront of quality and sustainable best practices.

- **10 acres** of grazing by flock of **Olde English Southdown Babydoll sheep** for weed management and soil fertility provided by **Walsh Vineyards**
- Two-flight **Vigor Pro** package (50 acres) providing data-driven vineyard insights for vineyard health from **VineView**
- **Owl box with pole and blue bird box** to support sustainable pest management with installation and consultation **courtesy of Aloft Napa Valley**
- **Two-sap** flow sensors, the most powerful tool to monitor water use in the vineyard, plus 360viti subscription for one harvest from **Fruition Sciences**
- **One spore trap** plus online and mobile access to CVC's Spore Trap Network **from Coastal Viticulture Consultants**
- **\$5,000** toward **ETS Laboratories** services
- Up to **five samples** for the 11-virus combo testing panel from **Agri-Analysis**
- The **all-new Arable Mark 3 in-field monitoring device** all-in-one subscription plus **Arable Vision** and **Arable Water** for one-year
- A **Kubota RTV520** to ride through the vineyard in style

Sharpen your vineyard tool set and your vines will flourish the whole year long!

CONSIDERATIONS: Equipment and services subject to restrictions by company. See redemption certificate for details.

THANK YOU: Agri-Analysis - Davis, Arable, Tom Clark - Aloft Napa Valley, ETS Laboratories, Fruition Sciences, Green Valley Tractor, Bryan Rahn - Coastal Viticulture Consultants, VineView, Walsh Vineyards
